

SRI CHANDU NANNAKA

COMPUTER SCIENCE & ENGINEERING (AI & ML)
9182040749 | nannakasrichandu@gmail.com | Visakhapatnam
Linkedin : linkedin.com/in/sri-chandu-nannaka-529562322
GitHub https://github.com/srichandu02

Results-driven Computer Science undergraduate specializing in Artificial Intelligence and Machine Learning, with strong skills in Data Structures, Algorithms, Data Analytics, Machine Learning, and Full-Stack Development. Experienced in developing AI/ML models, data-driven applications, and scalable software solutions using modern technologies.

EDUCATION

B.Tech – Computer Science & Engineering (AI & ML)
Anil Neerukonda Institute of Technology and Sciences (ANITS), Visakhapatnam
2023 – 2027 | CGPA: 8.7 (Till Date)

Intermediate – Narayana Junior College (IIT Campus), Vijayawada	**94.7%**
AP EAMCET Rank	**11,234**
TS EAMCET Rank	**17,503**

INTERNSHIP

AIML Intern | *Infosys Virtual Internship 7.0* ***Jun 2026 – Present***

- Working on real-world AI & ML use cases through hands-on projects and guided learning.
- Exploring machine learning algorithms, data preprocessing, model evaluation, and deployment.
- Gaining industry insights and enhancing practical problem-solving skills.

Software Development Intern | *Yukthi electronics pvt ltd* ***May 2026 – Present***

- Developed interactive web dashboards using HTML, CSS, and JavaScript to visualize real-time smart meter readings and water consumption data.
- Implemented SQL-based data storage and retrieval for smart meter readings, user information, complaints, and system records.
- Created interactive dashboards with real-time analytics, KPIs, and alerts.

SOC Analyst Intern | *Cyberthreya* ***Apr 2025 – Jul 2025***

Monitored security events and analyzed logs using **Splunk SIEM** and **Wazuh**.

- Investigated authentication threats, brute-force attacks, and endpoint vulnerabilities.
- Assisted in incident response and improved detection rules to reduce false positives.

PROJECTS

AI Textile Waste Intelligence Platform – AI-Powered Recycling System

React.js, Python, FastAPI, TensorFlow, Scikit-learn, Docker

- Developed an AI-based platform for textile waste classification and recycling recommendations using Computer Vision.
- Built React.js frontend and FastAPI backend for image processing, ML inference, and analytics.
- Implemented ML preprocessing, model training, evaluation, and Docker-based deployment.

GitHub: https://github.com/srichandu02/AI-textile-waste-platform

NFT Marketplace – Decentralized Web3 Application

React.js, Node.js, Web3, Motoko

- Built a decentralized NFT marketplace to mint, list, and trade NFTs.
- Integrated Motoko smart contracts for secure blockchain transactions.
- Implemented wallet authentication and NFT ownership management.

GitHub: https://github.com/srichandu02/opend-nft-marketplace

Smart Water Meter Dashboard

React.js, FastAPI/Django, PostgreSQL, Python, Machine Learning

- Developed a role-based Smart Water Meter Dashboard for Super Admin, Manager, Technician, and End User.
- Built AI/ML analytics for water consumption forecasting and anomaly detection.

LEADERSHIP EXPERIENCE

Vice President – Compliance | *Street Cause, Visakhapatnam* **2025 – 2026**

- Ensured compliance with organizational policies, governance, and ethical standards.
- Coordinated with leadership and teams to execute social impact initiatives effectively.
- Managed documentation, reporting, and regulatory adherence for organizational activities.

SKILLS

Programming: Python, Java, C, JavaScript ,Motoko
Web: HTML, CSS, React.js, Node.js, Express.js, FastAPI
AI/ML: NumPy, Pandas, Scikit-learn, Deep Learning, NLP
Database: SQL, PostgreSQL
Cybersecurity: Splunk, Wazuh
Tools: Git, GitHub, VS Code, Postman, Linux

CERTIFICATIONS

- NPTEL – Data Structures & Algorithms Python **(IIT Madras)**
- The Complete Full-Stack Web Development Bootcamp – **Dr. Angela Yu**, Udemy
- Python Programming – Abdul Bari, Udemy
- Java Programming – Abdul Bari, Udemy
